

Vantra™ IM
CARTONER

The perfect combination of innovation, versatility and simplicity.

Compact and economical, the Vantra™ IM offers the flexibility to setup, load and close cartons and trays on a single platform at speeds up to 55 per minute. For maximum versatility, the Vantra intermittent motion cartoner easily integrates with various infeed options to gently and accurately handle many product types, including applications requiring multiple manipulations.

Vantra IM from Douglas. Simply, perfect.

DOUGLAS

Intermittent Motion Platform Provides **Versatility & Value**

The **Vantra IM** cartoner/tray packer provides a highly versatile single platform solution designed with a hygienic sheet metal frame and standoff bearing mounts.

- Tray and carton capability on a single platform
- Compact and economical
- Various infeed styles offer application and product handling flexibility
- Ergonomic, walk-in design provides easy access
- Extensive carton range capability
- Glue seal for POL, FOL and RSC-flap style cartons
- Tuck closure for standard or reverse style cartons

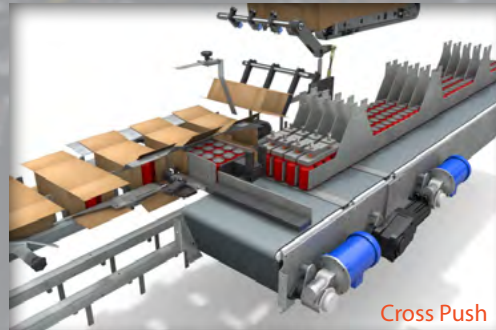

Application and Product Handling Flexibility

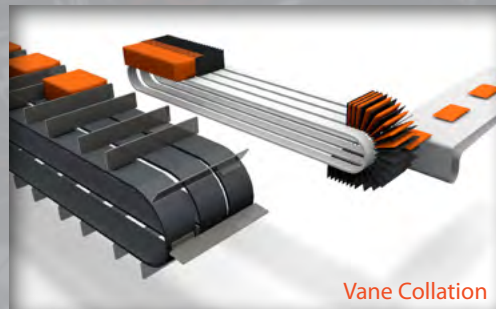

Simply Versatile

The Vantra IM is easily integrated with multiple infeed types to handle cans, bottles, cups, bags, flow-wrapped product and more.

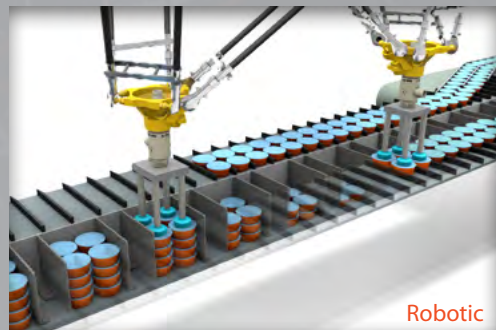

- Cross push loading for single or multiple lane products, utilizing a pressure release surge for a clean product release
- Positive place conveyor (PPC) for form-filled sealed bags and pouches
- Vane collation of flow-wrapped products, bags and pouches with loading into single or multiple infeed buckets
- Pick and place for product collation in buckets or at the load station
- Drop gates for multiple stick packs, meat snacks and more
- Robotics for products received in mass or requiring manipulation prior to collation or loading
